## About me

Software Developer experienced in building web applications using Angular, Node.js, REST APIs, and database management. Strong foundation in business informatics and scalable solution design.

Currently expanding skills through online courses and practical programming projects, focusing on frontend, backend, and cloud deployment.

Highly motivated, available full-time, and eager to contribute to dynamic technical environments by developing effective and innovative digital solutions.

## Work experience

**English Teacher – PNRR FUTURA** | Orion School Molfetta | 31/10/2024 - 30/06/2025 | Bari, Italy

Delivered English lessons (A2–B2, Starters and Movers) to students and teachers following the Cambridge curriculum. Applied interactive and immersive teaching methods to improve communication skills and adapt lessons to different age groups.

**Full Stack Developer** | AXA NEGOCE | 31/12/2023 - 31/05/2024 | Tunis, Tunisia

Developed a booking and user management platform (Angular, Node.js, MySQL) including authentication, admin dashboard, and responsive UI. Optimized the database and reduced loading times by 30%.
